

Assignment Day 6 | 30th December 2020

Question-1:

1. Install Google chrome on a windows system

2. Block the usage of google chrome to all user

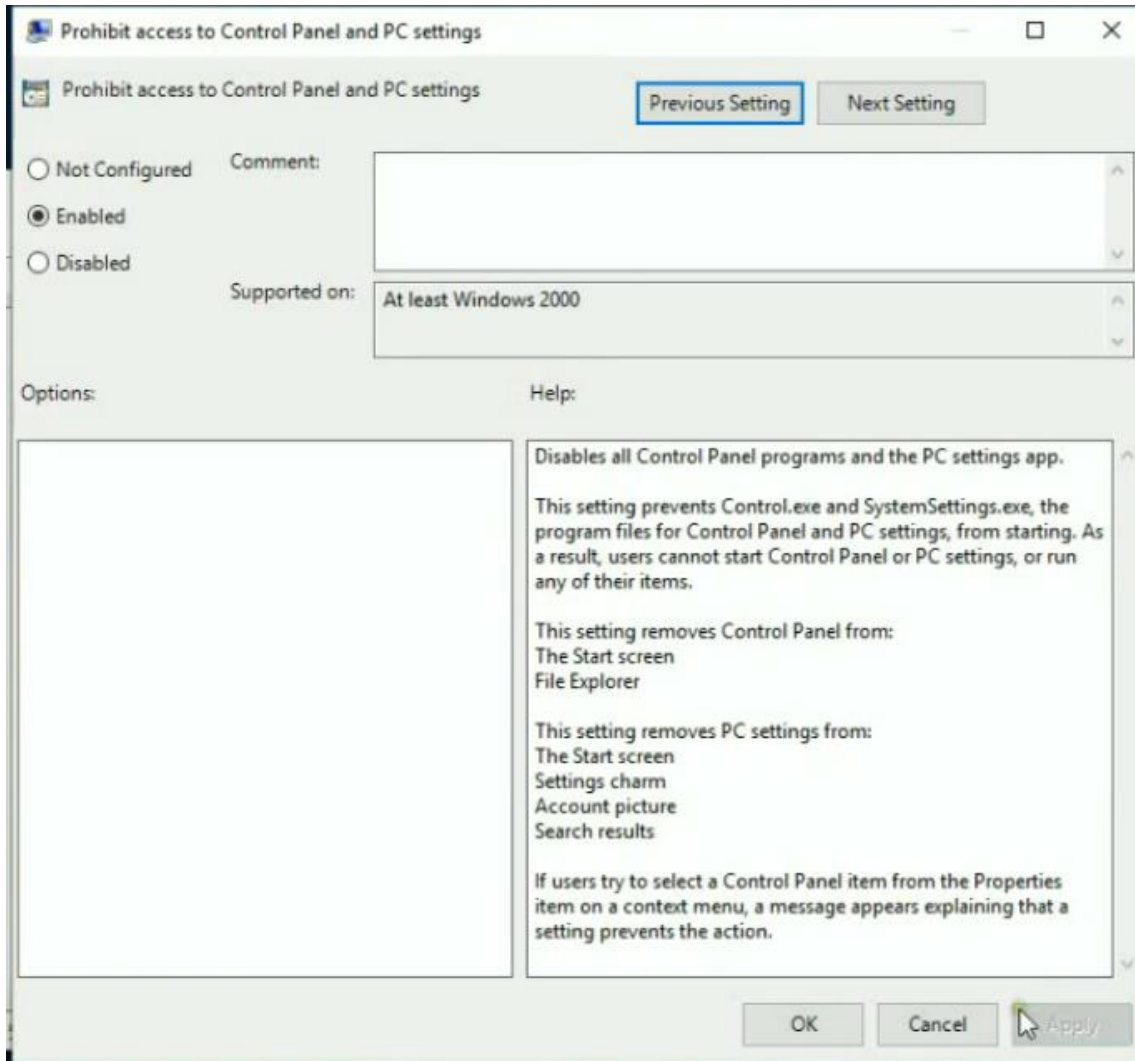

But the admin can revoke this Settings anytime

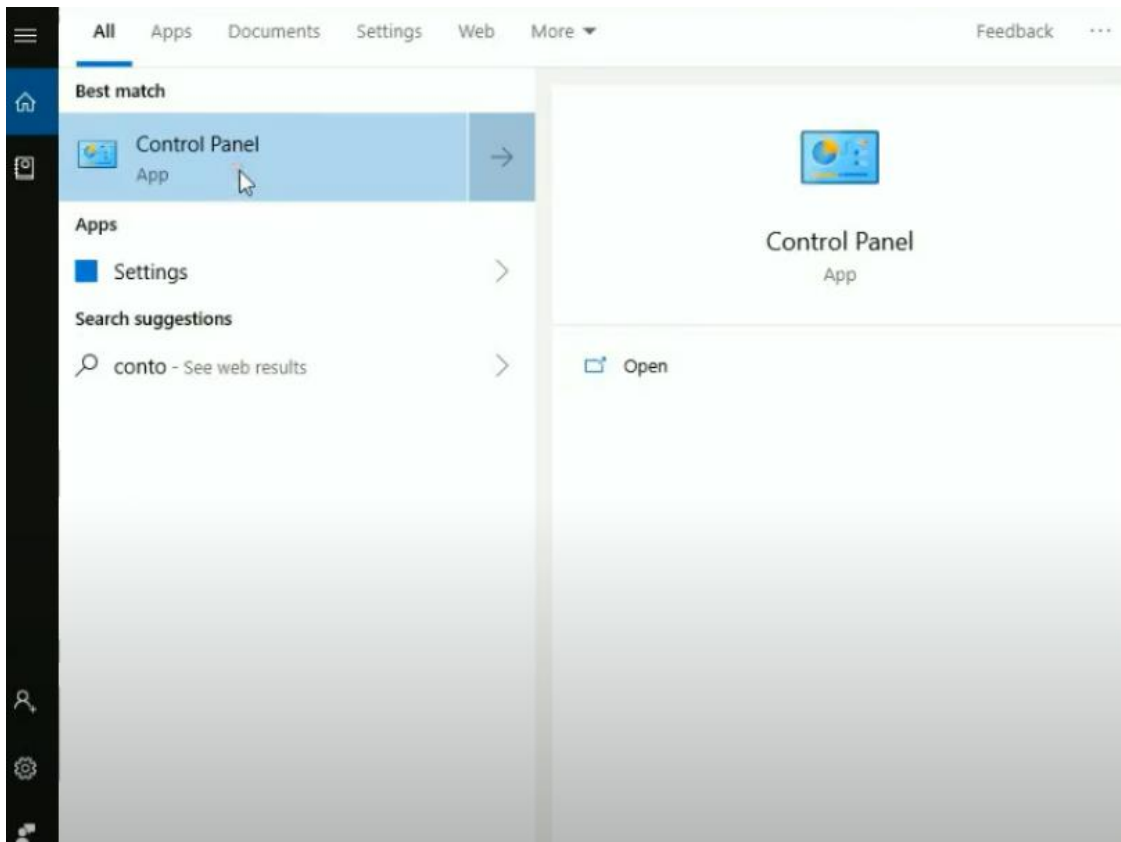

3. Block the access of control panel to all the users in windows system

Same like the previous one

Enable the prohibit access to Control Panel

Then from different user account check it

It will block the user
